Glasgow, Mo., Journal—"The Lexington Intelligencer presents an excellent review of Lafayette county in its last issue." Out of the inherent modesty of the newspaper man we suppose the editorialist has been led. But for the prompt discovery of his situation and almost immediate assistance rendered, he would undoubtedly have been burned to death.

Mr. Wm. S. Hamlett, always an enterprising caterer to the spouses of the city, had a fine lot of red-snapper, trout and sheep head, Wednesday and Thursday. They sold like hot cakes, and we can testify by actual experiment as to the excellence of the red-snapper.

Mr. Neudorfer whose office for the press is at the hardware store of Mr. Louis Gillen, is prepared to receive orders from the citizens of Lexington and the vicinity. His long experience in the study and practice of his beautiful art, among the principal establishments of his own country, and the high testimonials he can show from gentlemen in whose service he has been engaged for his taste, and his ability to do all that he professes. The environs of Lexington, and the handsome residences around the city, are justly entitled to the reputation he has won for natural beauty, but how greatly would that beauty be enhanced if they were still further adorned by the taste and skill of a practical landscape gardener. Mr. Neudorfer is a gentleman of science and education, and will guarantee the fullest satisfaction to all who may patronize him.

An account of this issue will be found in another column of the proceedings of the town meeting held at the court-house, last Saturday, and a long call for a meeting to be held Feb. 26th, resulting therefrom.

The meeting of Saturday was largely composed of gentlemen who, on a recent occasion voted against any attempt at compromise. We are glad to see that upon reflection they have changed their mind regarding the matter, and are now unanimously enlisted in an effort to arrive at a settlement of the question. We hope to see on Saturday, February 26th (the date should be borne in mind), a large meeting of the intelligent taxpayers of the township. They are every one peculiarly interested in this question, and should participate in the preliminary action to the settlement. The time for criminal law and recrimination regarding it has passed. There is no quarrel now among the people as to the justice or injustice of the Morrison's. The question of the people has been recorded on that point. What now remains to be done is to practically attack a practical question of expediency, and we hope the people will come to its consideration next time in such a mood that it may be easily disposed of.

Our amateurs have progressed rapidly this week, in assigning the sole parts in the play "The Merchant of Venice." The play has been assigned to the most competent, learning and memorizing their respective roles. The cast is not yet complete, but will be next week, at which time the chorus will be organized. To preserve the right of representation Gilbert Sullivan kept this opera in manuscript last year, and hence opportunist to see it were rare and only to be seen in the city of London.

Washington City amateurs immediately announced its production. Our amateurs were the first to see it, and we can say that it was more popular than "Pinafore." Its music is brighter and more melodious, and its humor broader and more striking. The costumes are exceedingly attractive and the stage effects are brilliant. We require entirely new scenery, upon which Mr. Boothman has promised his most artistic skill. This is the greatest play we have ever undertaken here, and we hope our people will show their appreciation of the enterprise of our singers, who are determined that our little city shall keep its place in the list of the most musical points in the state outside of St. Louis. It has been suggested by some of the citizens of Richmond, who know and admire our talent, that the opera be produced on the night of Monday next, and we are now endeavoring to secure a full house would greet them.

In the house at Jefferson City, Wednesday, \$80,000 was appropriated for making the new bridge over the river, and the appropriation is for two years, making the expenditure \$160,000 per annum. It has nothing to do, either with the question of the interest of the bondholders, or with the question of the state of the river, as the sum is not for expenses but to add to the property of the state. If the principle should be able to pay the interest of the bondholders, it would not be entitled to be considered as a debt, but should receive credit for the added value of the state's property. Hon. J. W. Berryman, chairman of the house, has been successful in his investigation of the necessities of the prison. We have his report before us. In it he has shown that the condition of the institution good, except that one of the buildings needs better ventilation; that additional shop room and motive power are needed; that the commissary is in a state of disrepair; that a kitchen, dining room, chapel, and house for the inmates are needed, and that the prison farm is in a state of neglect. He has also shown that the discipline is found to be very good, and the books and accounts in perfect order. The appropriation is made in full (excluding \$30,000 for kitchen, dining room, chapel building, \$12,070 for extension of Strains' business shop, \$3,000 for additional boilers, steam and heating pipes, \$10,000 for machinery for cooking purposes and laundry, \$8,000 for extra pay for extra guards, and for necessary outside skilled labor, \$5,000. Total, \$200,000. No one who is familiar with the subject can doubt the wisdom of this appropriation, and its economy, for it will bring back a ten-fold return in better results from the prison labor. Mr. Berryman is to be congratulated on having so well accomplished his work, and it is sincerely to be hoped that the senate will acquiesce in it.

The Masquerade Ball.

Last Monday night, according to previous announcement, a grand masquerade ball was given by the Liederkranz, in their spacious hall.

The hall was well lighted, and seated around the room were the spectators, who slowly scrutinized the makers as they made their appearance, endeavoring to discover who they were before the masks were removed. They were seldom correct in their surmises, however, and the mistake they made were quite amusing.

The march around the hall was a right pretty sight. The maskers were some forty-five in number, of which the following is a nearly correct list as it was possible to get.

LADIES:

Miss Donie Webb—Midnight.

Miss Emma Ruppel—Midnight.

Miss Carrie Blinn—French Girl.

Miss Carrie Ward—German Girl.
